Bitcoin

return to the de facto Standards area

> *Bitcoin is a consensus network that enables a new payment system and a completely digital money. It is the first decentralized peer-to-peer payment network that is powered by its users with no central authority or middlemen. From a user perspective, Bitcoin is pretty much like cash for the Internet. Bitcoin can also be seen as the most prominent triple entry bookkeeping system in existence.*[1)]

Participating in Bitcoin Communities

The Where to Discuss Bitcoin is an excellent resource. Many of the avenues open are through social media. Bitcoin has an official forum known as the Bitcointalk Forum.
