Presentation to OMG Technical Meeting, Reston, VA
Mar 20-24, 2017

SysML 2 Analysis Requirements

Manas Bajaj - manas@intercax.com

Contributors
Bjorn Cole (GTRI), George Walley (Ford), Ahsan Qamar (Ford),
Jeff Vodov (Draper Labs), Sanford Friedenthal, John Watson
Analysis Requirements

• See Excel spreadsheet for current state of SysML 2 analysis requirements
  • Meta-model requirements
  • Service (API) requirements
Analysis Concept Model

- Original concept model is a model-based definition of the terms used in the requirements.

- Work in progress to merge this analysis concept model in the SECM (Systems Engineering Concept Model) so that we have a single normalized concept model for all SysML 2 RFP requirements.
Analysis Concept Model – work in progress, merging with SECM
