

6.11.2 Artificial Intelligence (AI)

[Return to RDT&E](#)

The OMG members recommend the Federal Reserve use [Research Development Test & Evaluation \(RDT&E\) Funding](#) in developing and perfecting Artificial Intelligence (AI) for use with and alongside a U.S. CBDC. The AI could help in detecting suspicious security and criminal activities. When combined with [Biometrics](#) and [Biometric Authentication](#).

AI could also consider time and geospatial data to make informed decisions about the validity of a proposed transaction.
