Constructs Mapping Spreadsheet

[Constructs Mapping Spreadsheet v8](#)

This spreadsheet consists of:

- Sheet 1: Mappings between constructs used in the existing Semantics Repository, the early draft version of ODM, and the agreed mappings to the current and next versions of ODM
- Sheet 2: Mapping to SBVR constructs (under construction)
- Sheet 3: Additional non ODM metadata that exists or is needed to extract model content, for provenance and other purposes. This currently includes some rough working notes on how to implement these in SBVR.
