3. Meeting Notes

Claude Baudoin reviewed the agenda.

Round of introductions.

Key points from the March 24 (Q1) meeting:

- “Security, Privacy and Technology in the Cloud: Understanding the Evolving Global Legal Landscape” -- Jordan Fischer, Esq. (Beckage)
- Update on Cloud Security Alliance Work -- Shamun Mahmud (CSA)
- X9.125 standard on cloud guidance to financial institutions (Sandra Lambert, ANSI X9)
- Cloud Data Governance Discussion Paper Plan -- J.C. Franchitti (Archemy)
- XaaS Discussion -- Karolyn Schalk (IBM)

3.1. The Responsible Computing Initiative -- Marc Peters (IBM Germany)

Slides are...

Discussion with other groups such as IEEE

OMG as pub channel in some cases (marketing collateral, discussion papers, standards). It should not be IBM-branded, which some companies are concerned about.

3.2. Cloud Data Governance paper update -- Jean-Claude Franchitti (Archemy)

Slides

Some difficulty getting people to find the time to contribute their sections, esp. Sections 6 and 7. Inviting authors to join the LinkedIn group and ask for contributions if needed. [LI CWG grp](#)

Next deadline is Nov. 8 for the Q4 meeting if we can't be ready for Q3, although the four-week rule is not strictly compulsory for discussion papers..

3.3. Privacy in the Cloud at Financial Institutions -- Ulf Mattsson (Protegrity)

Ulf prepared extensive information that does not fit the 45-minute format, and Claude asked him to select a smaller number of slides to present today. However, the full slide set is on the OMG server as document cwg/21-06-01. We are looking into a longer seminar (two hours) during the Q3 meeting. This covers a lot of ground, and is not restricted to financial institutions.

3.4. The Landscape of Cloud Standards: an Update -- Eric Hibbard (Samsung)

X

3.5. Plan for co-chair rotation for the next 4 quarters

Seeking group consensus to confirm the following plan. Following Karolyn Schalk's retirement from IBM -- subject to any subsequent vote the group may care to entertain:

Jan.-May 2021	June-Dec. 2021 (through Q4 mtg)	Dec. 2021-June 2022 (through Q2 mtg)
Claude Baudoin (cébé)	Claude Baudoin (cébé)	Claude Baudoin (cébé)
Karolyn Schalk (IBM)	Lisa Schenkewitz (IBM)	Jyoti Chawla (IBM)
Dave Harris (Boeing)	Dave Harris (IT Value Acceleration)	Dave Harris (IT Value Acceleration)

3.6. Roadmap and Pre-Planning of Q3 Meeting

Potential deliverables:

- Any existing papers to revise?
- David Harris' proposal regarding SDP?
- Glossary of XaaS technologies and applications?
- Standard CSA template (Claude)

The 2020Q3 meeting will be the week of Sep. 27 to Oct. 1, and may be hybrid, with an in-person meeting in Burlingame, Calif. (next to San Francisco airport)

Future speakers:

- Bruce Speyer, Texas Dept of Information Resources -- September?

- Leader(s) of the Industrial Internet Consortium's Distributed Computing Contribution Group (Chuck Byers?)
- Shamun Mahmud, or someone else from CSA, to describe the CCAK certification program (Certificate of Cloud Audit Knowledge)
<https://cloudsecurityalliance.org/education/ccak/>
- Seminar by Ulf Mattsson on differential privacy and cryptography (2 hours?)
