☐ [nick]Above there is a reference to "Proof of State" along with "Proof of Work". The glossary contains a def for Proof of Work (PoW). Does not contain a def for "Proof of **State**" -- but it does contain a def for "Proof of **Stake**" -- is this merely a typo? Did you mean Proof of **Stake**? Can add the cross reference back to the Glossary for PoW but will wait on what to do with PoS ..
