

2.2 Technical Views

[return to Technical Views](#)

Technical Views are intended to define at a high level the various components of larger DIDO systems. They outline generic parts, subparts, and interconnections of those parts and subparts for a DIDO system. For each part or subpart, a list of potential standards, best practices, and tools is provided. There are multiple views, subdivided into two main areas:

- [2.2.1 Fundamental Views](#)
- [2-nodenet](#)
