Digital Asset are anything existing in a digital format and comes with the right to use. Data that do not possess that right are not considered assets.

Digital assets include but are not exclusive to:

- photography
- logos
- illustrations
- animations
- audiovisual media
- presentations
- spreadsheets
- digital paintings
- word documents
- electronic mails
- websites, and a multitude of other digital formats and their respective metadata.

Note: The number of different types of digital assets is exponentially increasing due to the rising number of devices that are conduits for digital media, and especially the growth of digital o e.g., smartphones.
