

Research Development Test & Evaluation (RDT&E) Funding

[Return to Glossary](#)

Research Development Test & Evaluation (RDT&E) Funding is used to pay the operating costs of dedicated activities engaged in the conduct of research, development, and test and evaluation efforts performed by a contractor and/or government organization. It's used to develop equipment, material, or computer application software and its Development Test and Evaluation (DT&E) and Initial Operational Test and Evaluation (IOT&E).
