

Topic Name

[Return to Glossary](#)

Topic Name, while it is true that the [Data Distribution Service \(DDS\) API](#) specification does not mention a limit for [Topic](#) names, the complementary DDS [Wire Protocol](#) specification: [Real-time Publish-Subscribe \(RTPS\)](#) protocol (<http://www.omg.org/spec/ DDSI-RTPS/2.2>) does state that Topic names shall not exceed 256 characters (see Table 9.12).
