

Bitcoin

[return to de facto Standards Bodies](#)

Bitcoin is a consensus network that enables a new payment system and a completely digital money. It is the first decentralized peer-to-peer payment network that is powered by its users with no central authority or middlemen. From a user perspective, Bitcoin is pretty much like cash for the Internet. Bitcoin can also be seen as the most prominent triple entry bookkeeping system in existence.¹⁾

Participating in Bitcoin Communities

The [Where to Discuss Bitcoin](#) is an excellent resource. Many of the avenues open are through social media. Bitcoin has an official forum known as the [Bitcointalk Forum](#).
