

Tool: Ganache

[Return to Truffle Suit](#)

Ganache is a tool to set up your own local Ethereum blockchain that you can use to deploy and test your [dido:public:ra:xapend:xapend.a_glossary:s:smart_contract]] / [Distributed Application \(DApp or DApp\)](#) before launching them on an authentic chain. As such, **Ganache** enables developers to avoid paying unnecessary gas fees during the developing process.
