

Open Data Commons

[Return to the de facto Standards area](#)

Open Data Commons is the home of a set of legal tools and licenses to help you publish, provide and use open data.

Licenses

To discover more about open data and content, use these resources:

- *What is open data and how does it relate to open knowledge? Consult our guide*
- *How is “openness” defined in relation to data and content? Read the Open Definition*
- *Have more detailed questions about the Open Data Commons licenses? Our frequently asked questions may provide answers*
- *Use the Licenses Service to get data on more than 100 open source, open data and open content licenses in JSON and API friendly form*

Note: Open Data Commons is maintained by the [Open Knowledge Foundation](#). If you have any questions, join our discussion forum or email info@okfn.org to contact our team.
