

ISO/IEC 25030:2007 SQuaRE -- Quality Requirements

[return to the ISO Standards](#)

Table 1: Data Sheet for SQuaRE – Quality Requirements

Title	Software engineering – Software product Quality Requirements and Evaluation (SQuaRE) – Quality requirements
Acronym	
Version	2007
Document Number	25030:2007
Release Date	2007-06
Reference	https://www.iso.org/standard/35755.html

Note: The following is an excerpt from the official ISO catalog. It is provided here as a convenience and is not authoritative. Refer to the original document as the authoritative reference.

Summary

ISO/IEC 25030:2007 provides [requirements](#) and recommendations for the specification of software quality requirements. It applies to both acquirers and suppliers. It focuses on software quality requirements, but takes a system perspective since software is normally developed and applied as part of a larger system.

Software product quality requirements are needed for:

- *specification (including contractual agreement and call for tender);*
- *planning (including feasibility analysis);*
- *development (including early identification of potential quality problems during development); and*
- *evaluation (including objective assessment and certification of software product quality).*

If software quality requirements are not stated clearly, they may be viewed, interpreted, implemented and evaluated differently by different people. This may result in: software which is inconsistent with user expectations and of poor quality; users, clients and developers who are unsatisfied; and time and cost overruns to rework software.

ISO/IEC 25030:2007 helps to improve the quality of software quality requirements. It does this by providing requirements and recommendations for quality requirements, and guidance for the processes used to define and analyse quality requirements. It applies the quality model defined in ISO/IEC 9126-1 [ISO/IEC 25010] and it complies with the requirement processes defined in ISO/IEC 15288.

ISO/IEC 25030 is part of the SQuaRE series of International Standards.
