

# OASIS: eXtensible Access Control Markup Language (XACML)

[return to the OASIS Standards](#)

Table 1: Data sheet for eXtensible Access Control Markup Language (XACML)

Title	eXtensible Access Control Markup Language (XACML)
Acronym	XACML
Version	3.0
OMG Document Number	
Release Date	22 January 2013
About Specification	<a href="https://www.oasis-open.org/committees/tc_home.php?wg_abbrev=xacml">https://www.oasis-open.org/committees/tc_home.php?wg_abbrev=xacml</a>
Document	<a href="http://docs.oasis-open.org/xacml/3.0/xacml-3.0-core-spec-os-en.html">http://docs.oasis-open.org/xacml/3.0/xacml-3.0-core-spec-os-en.html</a>

**Note:** The following is an excerpt from the actual document. It is provided here as a convenience and is not authoritative. Refer to the original document as the authoritative reference.

## Introduction

*The eXtensible Access Control Markup Language (XACML) [XACML-3] defines an architecture and a language for access control (authorization). The language consists of requests, responses, and policies. Clients send a request to a server to query whether a given action should be allowed. The server evaluates the request against the available policies and returns a response. The policies implement the organization's access control requirements.* <https://tools.ietf.org/html/rfc7061>
