## Scope

*The main purpose of CWM is to enable the easy interchange of warehouse and business intelligence metadata between warehouse tools, warehouse platforms and warehouse metadata repositories in distributed heterogeneous environments. CWM is based on three key industry standards:*

- *UML - Unified Modeling Language, an OMG modeling standard*
- *MOF - Meta Object Facility, an OMG metamodeling, and metadata repository standard*
- *XMI - XML Metadata Interchange, an OMG metadata interchange standard*

*These three standards form the core of the OMG metadata repository architecture...*
