

DDS For Extremely Resource Constrained Environments (DDS-XRCE)

[return to the OMG Standards](#)

Table 1: Data sheet for DDS For Extremely Resource Constrained Environments (DDS-XRCE)

Title	DDS For Extremely Resource Constrained Environments
Acronym	DDS-XRCE
Version	1.0 beta 2
OMG Document Number	
Release Date	March 2019
About Specification	https://www.omg.org/spec/DDS-XRCE/
Document	https://www.omg.org/spec/DDS-XRCE/1.0/Beta2/PDF

Note: The following is an excerpt from the actual document. It is provided here as a convenience and is not authoritative. Refer to the original document as the authoritative reference.

Scope

This specification defines a XRCE Protocol between a resource constrained, low-powered device (client) and an Agent (the server). The XRCE Protocol enables the device to communicate with a DDS network and publish and subscribe to topics in a DDS domain via an intermediate service (the XRCE Agent). The specification's purpose and scope are to ensure that applications based on different vendors' implementations of the XRCE Protocol and XRCE Agent are compatible and interoperable.
