

# Appendix E: Tools

[return to the Public Area](#) **OR** [return to Reference Architecture \(RA\)](#)

As with all projects, DIDOs require tools to support their development, management, and operation. The following lists of tools are meant to be informative and by no means exhaustive.

## Community Tools

The following tools are used to aid in the development of software, particularly the development of Open Source Software (OSS).

- [oss](#)
- [license-scan](#)
- [bugtrack](#)
- [release-mgmt](#)
- [project-health](#)
- [code-review](#)
- [code-signing](#)
- [project-oversigt](#)
- [project-quality](#)
- [logging](#)

## Network Traffic Analysis Tools

- [netwrkanal](#)

## Tools for communications and collaboration

- Tools TBD

## Tools for corporate-scale GitHub management

- Tools TBD
