

# 1.0 Problem Statement

## [Return to User Scenario: Identity](#)

Nancy is a USA citizen and plans a month-long European vacation with 4 major legs all within the Schengen Agreement Zone<sup>1)</sup>.

Nancy needs to identify herself during the trip and potentially expose a lot of [Personal Identifiable Information \(PII\)](#) as well as financial information (i.e., Credit Cards) to numerous people in numerous countries. In addition to the exposure of her PII to the corporations, businesses, and individuals that she has direct business with, she also has to worry about her PII being processed by partner organizations that work with businesses she does direct business with. As a result of poor [Data Residency](#) requirements, her PII might be processed and stored across the world. See [Confidentiality](#).
