

User Scenario: Identity

[Return to User Scenarios](#)

There are conflicting interests at work in the Identity area. The need for information about individuals versus the need for privacy for the individuals appears in conflict with each other. The burden of providing identity for individuals has largely fallen on governments and government agencies. The following are some of the applicable restrictions that need to be considered:

- [Health Insurance Portability and Accountability Act \(HIPAA\)](#)
- [General Data Protection Regulation \(GDPR\)](#)
- [Data Protection Act 2018](#)
- [California Consumer Privacy Act \(CCPA\)](#)

The Medical Supply Chain

Overview

[Return to Top](#)

The **Identity** is a User Defined scenario. The User Scenarios does not have the level of detail of a use case, but is intended to capture a simplified workflow.

[Provide a one or two sentence description of the User Scenario.](#)

The following list covers some legal or other governing documents for this Identity:

- [Provide a list and/or reference here](#)

Problem Statement

[Return to Top](#)

[Provide a problem statement as story.](#)

Existing Identity Flow

[Return to Top](#)

The existing **Identity** work flow is

Activities

[Return to Top](#)

The following are a list of the activities associated with the **Identity** workflow:

1. [Provide a series of activities associate with the workflow](#)

[Provide a workflow diagram for Identity](#)

Figure 1: The existing workflow for Identity

Issues

[Return to Top](#)

The following issues are associated with the existing Identity workflow:

1. [Provide a list of issues associated with the existing Identity workflow](#)

Theoretical Flow using DIDO

[Return to Top](#)

Activities

[Return to Top](#) The following are a list of the activities associated with a theoretical DIDO **Identity** workflow:

1. [Provide a series of activities associate with the workflow](#)

[Provide a workflow diagram for theoretical Identity](#)

Figure 2: The theoretical workflow for Identity

Issues

[Return to Top](#)

The following issues are associated with the theoretical DIDO Identity workflow:

1. [Provide a list of issues associated with the theoretical DIDO Identity workflow](#)
