

User Scenario: Identity

[Return to User Scenarios](#)

There are conflicting interests at work in the Identity area. The need for information about individuals versus the need for privacy for the individuals appears in conflict with each other. The burden of providing identity for individuals has largely fallen on governments and government agencies. The following are some of the applicable restrictions that need to be considered:

- [Health Insurance Portability and Accountability Act \(HIPAA\)](#)
- [General Data Protection Regulation \(GDPR\)](#)
- [Data Protection Act 2018](#)
- [California Consumer Privacy Act \(CCPA\)](#)

The Medical Supply Chain

Theoretical Flow using DIDO

[Return to Top](#)

Activities

[Return to Top](#) The following are a list of the activities associated with a theoretical DIDO Identity workflow:

1. [Provide a series of activities associated with the workflow](#)

[Provide a workflow diagram for theoretical Identity](#)

Figure 1: The theoretical workflow for Identity

Issues

[Return to Top](#)

The following issues are associated with the theoretical DIDO Identity workflow:

1. Provide a list of issues associated with the theoretical DIDO Identity workflow
