

User Scenario: Identity

[Return to User Scenarios](#)

Overview

[Return to Top](#)

There are conflicting interests at work in the Identity area. The need for information about individuals versus the need for privacy for the individuals appears in conflict with each other. The burden for providing identity for individuals has largely fallen on governments and government agencies. The following are some of the applicable restrictions that need to be considered:

- [Health Insurance Portability and Accountability Act \(HIPAA\)](#)
- [General Data Protection Regulation \(GDPR\)](#)
- [Data Protection Act 2018](#)
- [California Consumer Privacy Act \(CCPA\)](#)

Also see [4.3.4.1 Confidentiality](#), and [Personal Identifiable Information \(PII\)](#).

The Identity Problem
